SUMMARY

Computer Science student with a strong foundation in software development, AI/ML, and full-stack web development. Proven experience building applications using Python, React, and modern development tools. Passionate about creating scalable solutions and contributing to innovative software projects.

EDUCATION

Bachelor of Science, Computer Science | *Trent University, Peterborough, ON* (2021 - 2025)

Trent University, Peterborough, ON

- Relevant Coursework: Front-End Web Development, CyberSecurity, Software Design & Modelling, Applied AI & Machine Learning, Database Management Systems

TECHNICAL SKILLS & KNOWLEDGE

- **Programming Languages:** Python, C#, C++, Java, JavaScript, HTML, CSS
- **Artificial Intelligence & Machine Learning:** TensorFlow, MobileNetV2, Scikit-learn, Pandas, NumPy, Matplotlib, ChatGPT API, LangChain, OpenCV
- **Web:** React.js, Next.js, Flask, Streamlit, SQL, PyPDF2
- **Tools:** Git, GitHub, Vercel, Figma, Jupyter Notebooks

PROJECTS

- **AI Resume Critiquer** | *Python, Streamlit, OpenAI API, PyPDF2*
 - Built a web application for resume analysis using GPT-4 with PDF text extraction and real-time feedback
- **AI Image Classifier** | *Python, TensorFlow, MobileNetV2, Streamlit, OpenCV*
 - Developed a web-based AI application for image classification with 1000+ ImageNet categories and confidence scoring
- **AI Assistant** | *Python, LangChain, OpenAI API, LangGraph*
 - Created a Python-based AI assistant with conversational capabilities, prompt engineering, and modular tool extension
- **Cheese Fat Prediction Model** | *Python, scikit-learn, pandas, NumPy, Matplotlib*
 - Implemented a machine learning regression model for food quality control with a complete data science workflow

PROFESSIONAL EXPERIENCE

Sales & Technical Support Specialist

(May 2021 – Oct. 2024)

Super Choice Kitchen Inc, Burlington, ON

- Developed internal software tools and automated workflows using Python and database systems
- Implemented data processing scripts and reporting systems to improve team efficiency
- Provided technical support for internal software systems and created technical documentation
