SUMMARY

Software Engineer with a strong foundation in software development, AI/ML, and web development. Experienced in building applications using Python, React, modern development tools, model development and model deployment. Passionate about creating scalable applications, algorithm optimization and contributing to innovative production-ready software projects.

EDUCATION

Bachelor of Science, Computer Science

(2021 - 2025)

Trent University, Peterborough, ON

- **Relevant Coursework:** Front-End Web Development, CyberSecurity, Software Design & Modelling, Applied AI & Machine Learning, Database Management Systems

TECHNICAL SKILLS

- **Programming Languages:** Python, C#, C++, Java, JavaScript, HTML5, CSS3
- **Artificial Intelligence & Machine Learning:** TensorFlow, MobileNetV2, Scikit-learn, Pandas, NumPy, Matplotlib, ChatGPT API, LangChain, OpenCV, Model Training & Evaluation, Data Preprocessing
- **Web:** React.js, Next.js, Flask, Streamlit, REST API Development, SQL, PyPDF2
- **Tools:** Git/GitHub, Vercel, Figma, Jupyter Notebooks

PROJECTS

- **AI Resume Critiquer** | *Python, Streamlit, OpenAI API, PyPDF2*
 - Developed a resume analysis web application with PDF text extraction, keyword matching, and real-time AI feedback
 - Integrated natural language processing (NLP) techniques to enhance content evaluation accuracy
- **AI Image Classifier** | *Python, TensorFlow, MobileNetV2, Streamlit, OpenCV*
 - Built a web-based AI application for image classification with 1000+ ImageNet categories and confidence scoring
- **AI Assistant** | *Python, LangChain, OpenAI API, LangGraph*
 - Created a conversational AI assistant with modular API integration, enabling tool-based task automation
 - Applied prompt engineering strategies to increase response accuracy and reduce latency.
- **Cheese Fat Prediction Model** | *Python, scikit-learn, pandas, NumPy, Matplotlib*
 - Implemented and deployed a machine learning regression model for food quality control with data visualization and a complete data science workflow

WORK EXPERIENCE

Sales & Technical Support Specialist

(May 2021 – Oct. 2024)

Super Choice Kitchen Inc, Burlington, ON. (416) 568-4900 - Owner

- Developed and deployed internal software tools and automated workflows using Python, SQL, and database systems, increasing operational efficiency by 25%.
- Designed and implemented reporting systems with data visualization dashboards, reducing manual reporting time from 2 hours to under 30 minutes.
- Provided technical support for internal software systems and created technical documentation, improving troubleshooting time by 40%.
